Special Issue on

SOME PROBLEMS IN APPLIED SEISMOLOGY

Papers presented during the 23rd General Assembly of the
European Seismological Commission, Prague, 7–12 September 1992

Edited by

VLADÍMIR SCHENK

Geophysical Institute, Academy of Sciences of the Czech Republic, Prague

J. VOGT, R. M. W. MUSSON, and M. STUCCHI / Seismogeological and Hydrological Criteria for the New European Macroseismic Scale (MSK-92) 1

T. SUSAGNA, A. ROCA, X. GOULA, and J. BATLLÓ / Analysis of Macroseismic and Instrumental Data for the Study of the 19 November 1923 Earthquake in the Aran Valley (Central Pyrenees) 7

A. LEVRET, J. C. BACKE, and M. CUSHING / Atlas of Macroseismic Maps for French Earthquakes with Their Principal Characteristics 19

R. ROTONDI, F. MERONI, and G. ZONNO / A Different Intensity Recording for Reducing the Uncertainty in Its Assessment: An Application to the Completeness Analysis of Earthquake Catalogues 47

INA CECIĆ / Macroseismic Practice in Slovenia 59

A. PANTEA / Macroseismic Intensity Attenuation for Crustal Sources on Romanian Territory and Adjacent Areas 65

D. JIANU and A. PANTEA / Application of a Probabilistic Model to Vrancea Intermediate Earthquakes 73

EID AL-TARAZI / Seismic Hazard Assessment in Jordan and Its Vicinity 79

VLADIMÍR SCHENK, ZDEŇKA SCHENKOVÁ, and VALERIY G. GITIS / Features of Geonomic Prognostic Functions for the Maximum Possible Earthquake 97

V. G. GITIS, E. N. PETROVA, and S. A. PIROGOV / Catastrophe Chains: Hazard Assessment 117

MIODRAG MANIC / Analysis of Nonstationary Properties of Ground Motion Recorded During the Montenegro Earthquake of 15 April 1979 123

M. ZHIZHIN, A. GVISHIANI, D. ROULAND, J. BONNIN, and B. MOHAM-MADIOUN / Identification of a Geological Region for Earthquakes Using Syntactic Pattern Recognition of Seismograms 139

J. ZAHRADNÍK, P. MOCZO, and F. HRON / Blind Prediction of the Site Effects at Ashigara Valley, Japan, and Its Comparison with Reality 149

VLADIMÍR SCHENK, ZDEŇKA SCHENKOVÁ, and PAVEL KOTTNAUER / Seismogeological Acceptance Criteria for Geological Repositories for Spent Nuclear Fuel 171

ALBERTO CASTELLANI and ZBIGNIEW ZEMBATY / Stochastic Modeling of Seismic Surface Rotations 181

Volume 10 No. 3 1994

Obituary:

SLAVA GUSIAKOV and GEORGE CURTIS / Professor Sergei Soloviev (1930–1994) 193

ÁRMANN HÖSKULDSSON and JEAN MARIE CANTAGREL / Volcanic Hazards in the Surroundings of Pico de Orizaba, Eastern Mexico 197

NIMR ARAB, ASADULLAH KAZI, and HERMAN H. RIEKE / Fractal Geometry of Faults in Relation to the 12 October 1992 Cairo Earthquake 221

AURELIO MERCADO / On the Use of NOAA's Storm Surge Model, SLOSH, in Managing Coastal Hazards – The Experience in Puerto Rico 235

A. EL-SAYED, R. WAHLSTRÖM, and O. KULHÁNEK / Seismic Hazard of Egypt 247

HOSSAM S. BADAWI and SHERIF A. MOURAD / Observations from the 12 October 1992 Dahshour Earthquake in Egypt 261

F. SCHERBAUM, C. PALME, and H. LANGER / Model Parameter Optimization for Site-Dependent Simulation of Ground Motion by Simulated Annealing: Re-Evaluation of the Ashigara Valley Prediction Experiment 275

Book Review:

N. Carter, J.-P. Revel, D. Sapir, and P. Walker (eds.), *World Disaster Report 1993* (MOHAMMED I. EL-SABH) 297
